

THIS SMART CASH REGISTER SKY-ROCKET YOUR INCOME AND KEEP YOUR COMPETITORS FAR BEHIND...

Try this powerful cash management system that makes your store performance shoot through the roof...

Last year, a small store in Cleveland earned \$804,000 profit without breaking a sweat. It didn't run expensive marketing campaigns to generate this income.

They did one simple thing: Installed Loyverse's **point of sale system (POS)** in its store.

HERE IS HOW LOYVERSE'S POS HELPED THE STORE GENERATE A WHOPPING INCOME...

1. The smart cash system recorded all its cash transactions error-free and generated the right information to make informed decisions.
2. It showed sales trends, indicating which item sold more like a hotcake. Thus, the store frequently ordered trendy items in a timely manner to get more profit.
3. The POS automatically calculated prices, discounts, taxes, and complex entries without wasting time on mathematics.
4. When the customers turned to the counter to pay their bills, the quick disposal system never put their customers on wait. It gave a painless experience, making them happy return customers.
5. The Point-of-sale was so easy to use that it didn't require a computer genius to run the machine. Even a total rookie could operate the system like a pro and generate valuable information in seconds.
6. It never drained its workforce like conventional ledgers do. It utilized its skilled labour in other areas to serve its core purpose.

"I had a terrible cash register. It was a weak and slow. I couldn't rely on its information. I didn't know about what our store was making. Thanks to the Voyerve POS system. Now it shows what I need. It provides a true picture of my store. I increased my profit by 113% compared to last year. Excellent point of sale mechanism from Loyverse"

Just like these stores, you can make similar or more profit from Loyverse's POS...

When you install this smart system in your store, we guarantee that you'll be making big profits... If not, then...

GET THIS GUARANTEE...

I give you a month's trial to see if the Voyerve POS works for you. If it doesn't as we described, return the system and pay nothing! The price associated with installation and testing will cost you NOTHING. We bear all the costs.

When the system gets things around, and you start making good profits, you pay only **\$19 for six months**.

But. That's not the final price...

If you buy this system NOW, you get significant savings... **\$32** for 12 months.

Yes... **\$32** for a year is nothing more than a one-time cheap meal. At the same time, you enjoy a high powered system in your store for the entire year.

If you're still not sure whether you need this POS, don't worry; we don't force you to buy unless you experience the same in your eyes.

Try a month's FREE subscription trial and pay as little as \$32 per year.
